Dear Mr. Lett,

Harold,

The first regular meeting of 1965 conducted by the Workable Program Coordinating Committee will be held June 11th at 10 A.M. in my office.

It is my thinking that before submission of the 1965 recertification of the Workable Program Community Improvement Application it would be advisable to have our committee review as a matter of policy the application prior to the formal submittal to the Municipal Council. This would prove most interesting to all members and certainly your review would be meaningful.

In recent months our City's development has rapidly moved ahead which has demanded much of the agency's time and considerable personal participation. At this meeting I shall be happy to exchange with you highlights of the current events and I am hopeful that together we will be able to outline progressive steps for the future.

I look forward to greeting you personally.

Very truly yours,

Hugh J. Addonizio
